

Dear Ted Williams,

I urge you to back off on your rush to implement the Phase 3 proposal. I believe you should be examining the failures of enforcement of the existing regulations -- you could listen to your own sheriff, for example. I voted for you in the past, but apparently this was a mistake.

I am witnessing alarming development here where I live. Bulldozers clanking away by day, blinding light pollution by night. I don't think the county has any idea of the scope of the problems increased cannabis cultivation is bringing.

Sincerely,

Paul Putter
