

I oppose changing the existing Cannabis land use ordinance to expand Cannabis grows on an industrial level into environmentally sensitive areas in our Mendocino County.

With Redwood Valley, Calpella, Potter Valley, Ukiah and Hopland experiencing EXTREME water shortages this is NOT the time for this move to expand the scale of Cannabis growing in our county. I realize the tax revenue from this crop is attractive to all our county leaders, please weigh this against protecting our water supplies so needed for our homes and fire safety.

Please vote NO on amending the Mendocino county code chapter 6.36 and chapter 20.243

Thank you for your prudence in this matter,
Doug
