

My name is Dylan Rogers and I support phase 3 and 10% expansion. I came to Mendocino from Seattle. I showed up in Laytonville with two bags, a guitar, hardly any money and the ugliest '95 Ford Explorer you've ever seen. I was put to work almost immediately. Every day that went by I would learn something new and for the first time in a long time I realized "I like the people I worked with, I respect the people I work for and I love the county I am living in." When I returned home for a visit, my family was surprised to say the least. My little sister told me I looked happy, my little brother told me I looked fit, and my mother told me I looked sunburned. Later on that evening she told me that moving to Mendocino was the best decision she's seen me make in a long time. She told me she couldn't be more happy or more proud to see me return home with a work ethic and a sense of responsibility she's never seen before. To put it plainly, the legal cannabis industry changed my life and there is nothing I would love to see more than to see it grow to help the community and county of Mendocino become even greater than it already is. I support Phase 3 and the 10% expansion.
