

Spending this money needs to be very closely related to the losses suffered and safety improvements for the future - not loosely linked funding for various county departments. Redwood Valley and Potter were hard hit. How about improvements to Tomki Road north so there is a more accessible alternative route out of the valley? Might be a similar need for Potter Valley. Upgrades or improvements for the various responders to fires? Better warning systems? Funding to Fire and Sheriff departments? Assistance to people burned out but without funding to rebuild? I'm sure there is a long list of problems discovered during the past fires that need to be addressed.
