

More fire danger is on it's way and here is some of the science:

<https://www.washingtonpost.com/weather/2021/04/10/drought-wildfires-california-west/>

Please kill the ordinance before it kills some of your constituents. The smoke damage from last year is still in our lungs.

Thank you for your attention to our health and welfare,  
Sandra Mullen  
Covelo, Ca.
