

Please do not be so foolish to expand the rules on marijuana growers. Marijuana is destroying this county in every way possible from trash to crime to constant light at night and most of all our lack of water. I could make the list longer and talk of the wildlife being killed or pesticides or transient people all over the place. Please help restore our county to the beautiful place it was. Do not give up our AG lands to these corporations and criminals.

I have lived here 45 years and hate going anywhere anymore because of what I have to see all over the place.

Thank you,

Sincerely,

Anita and Richard Turcotte Sr.
