

To the supervisors:

Do not pass the proposed cannabis expansion. I am reading many of the comments you have received. I have not yet found ONE that supports the expansion from someone who does not profit financially from marijuana. The County is unable to enforce the current cannabis ordinances. We are in a drought. Our County is on fire every summer and fall. Enforce the existing laws, not change them. The change needed is to abandon the complaint based system and enforce the law.
