

I oppose adoption on April 19th of new Chapters and amendments to the Mendocino County Code regulating Cannabis without a previous EIR related to the issues this raises.

I am a resident living for 50 years along the Russian River in the Russian River Estates housing development south of Ukiah. My home and those of my neighbors are already threatened by severe water shortages, wildfires, and wildlife destruction. Adoption of this proposal, favorable to large cannabis corporations, threatens the water, oak woodlands, rangelands and wildlife of Mendocino County.
