

I am a cattle rancher in Round valley . We are in a desperate drought as well have been invaded by an army of foreign criminals growing dope spreading illness , filth , environmental destruction and violence in their wake. I say no expansion at all of the marijuana industry until the illegal grows are eradicated and the invaders removed . **ALL ILLEGAL GROWS**. No expansion until you people have a simple commonsense ordinance in place and the drought is over . No expansion. All the fairy stories about tourism and protecting the water, the environment and ending illegal grows if phase 3 goes through would be laughable if it was so appalling .You should have had a plan the day this crap became “legal “ you all supported this and have done nothing to protect honest tax payers .
