

My name Nathan Chance Franck and I'm in support of the phase 3 ordinance. I love Mendocino and have made it my home for the last 20 years and plan to stay and raise my family. I used to own a retail shop in Ukiah for over 15 years and I am part owner and VP of Mendocino Grasslands and Yokayo Ranch. As a local farming business we need the opportunities to expand with the rest of California. Expansion would let us hire more people and help our local economy. I understand the fear to the farms that don't want to expand but the demand for the top shelf small batch will always be strong. There is room for all to eat at the table from high grade flower to bio mass oil farmers but we need the chance to grow our selves a bright and prosperous future. Thank you for your time.
