

I would like to express my sincere desire that mendocino county NOT open its doors to cannabis cultivation for any reason at 10% parcel acreage. I am open to 22k sq ft as a max per parcel. If that is not feasible, I'd be interested in seeing 1 acre being put on a ballot for public vote. Please protect our voice here. Please do not assume that BOS just knows better. I am not in favor of 10% expansion. Thank you,

Elise Planty
