

Supervisors,

Please remember who you are supposed to represent and VOTE NO on this Cannabis Land Use Ordinance.

Please say NO TO BIG GROWS which will destroy our environment, to the detriment of small backyard gardens.

Please say NO TO BIG BUCKS, those who are fortunate enough to own large parcels, have deep pockets, or corporate connections, instead safeguarding the future of all residents.

Please say NO TO CARPETBAGGERS who will come to our county and make a fortune as they suck up our water, create fire risks, and other environmental damage from which we may never recover.

Please refrain from short sighted goals, and instead SAY YES TO YOUR CONSTITUENTS AND SHOW SOME CONCERN for the quality of their lives, and their livelihoods.

In addition, i have grave concerns over the misuse of overhead aerial satellite imagery. This is a grotesque abuse of our right to privacy. Isn't that guaranteed by our constitution? Or is just the right to bear arms. Instead say yes to the right to bare arms. A person should be able to walk around naked in the privacy of their own property without thinking Big Brother is watching every move.

Thank you for listening.

And an extra thank you to Sup. John Haschak for demonstrating a genuine and intelligent concern for our residents throughout. Clearly, he already listens.

Sincerely,
a longterm local resident
