

Hey guys,

I have asked for the status of my only 2 clients in Phase 1, so far no response. I am assuming that both of my clients documents are accurate, current and complete as we have heard nothing from the county requiring more documents or revised documents. I have submitted updated site plans, LSAA, annual Waterboard report, CDEFA site inspection approval etc. We have had a biological and cultural assessment recently performed. Working on Appendix G, project description and Contiguous Expansion. All building permits issued and finalized, no grading. These are top notch operations.

Please make staff accountable as well as the applicants. Inconsistent messaging and changing staff direction to applicants is not helpful. If staff would send my 2 clients a correction or deficiency letter I would respond promptly. Do not throw the baby out with the bathwater  
Thank You,  
Scott Ward
