

Dear Mendocino County Board of Supervisors,

As a supplier to the cannabis industry -- an industry that will inevitably become national and international in scope -- I see the potential for Mendocino County to become the "Napa of Cannabis". This is a commercial birthright that can only be claimed if the County adopts sensible regulations that support measured industry growth. Phase 3 is a key next step.

Please vote "yes" on Phase 3.

Best regards,

Rick Berglund
CFO/VP Corporate Development
