

## Agenda 3b:

As a resident in Talmage, I urge the board to NOT implement the Mendocino County Cannabis Cultivation Ordinance Phase III, but to restrict the cultivation of cannabis in Mendocino County for two reasons:

1. The environment around cannabis is menacing. Some may be used as medicine, but mostly for recreational use, etc.
2. To save water for gardens and the cultivation of crops, since Mendocino County is undergoing a severe drought.

Respectfully presented,  
Rebecca Slaton

orhood, but with legalization and development, the vibes there are significantly more menacing.
