Maureen Mulhearn 2nd Dis.
RE: Cannabis Ph. 3

We have read the devastating facts in opposition to Phase 3. We haven't heard a single positive reason for implementing Phase 3.

Without an EIR, without adequate or knowledgeable staff to guide applicant through the permitting process, without staff to enforce compliance, without law enforcement to protect citizens in this very large County, Phase 3 is going to create an even larger uncontrolled disaster of irreparable consequences to our environment.

We urge you to Vote NO in considering this ordinance
