Re: A Path Forward for Our Farm - Revised Request

To the Honorable Mendocino County Board of Supervisors,

We are writing to follow-up on the request to change the ordinance language that was submitted earlier today (April 26,2021). After speaking with Supervisor Gjerde and Assistant Director Acker, they have recommended that we change our request and add amended language to section 22.18.050 instead of 10A.17.090.

We are requesting that you consider the following change to Section 22.18.050 (highlighted in red):

(A) Eligibility. The parcel upon which the Land Use Permit is requested shall not be located in a Commercial Cannabis Prohibition (CP) Combining District or sunset area (as described in Mendocino County Code section 10A.17.080(B)(2)(b)). In addition, the Phase 1 permit application shall not have been denied for one of the following reasons:

- (1) Tree removal violation.*
- (2) Failure to pass the required background check.
- (3) Lack of proof of prior cultivation.
- (4) Legal parcel established after January 1, 2016.
- (1)(5) Non-responsiveness to requests for information from the County.

***A tree removal violation does not include violations for which a release of liability has been legally established through a settlement agreement or other means.**

Thank you for considering this request.

Sincerely,

Art Harwood, Becky Harwood, Judith Kanavle and Rio Kanavle
