

Dear Supervisors,

I am strongly opposed to any changes in the cannabis ordinance. Until there has been actual enforcement of the regulations that are now in place, no changes should be even considered.

I am now watching non permitted grows expanding, four that are within sight of my home have actually tripled in size since this "discussion" has been ongoing this spring. When is this going to stop?

This needs to go in front of the residents of this county to decide.

Suki Dewey-White
