

PG&E Settlement Funds Request

The Brooktrails Fire Department (BCS) and the Little Lake Fire Protection District (LTL) are jointly requesting funds from the PG&E Settlement Funds for the following equipment for our agencies.

2- Polaris UTV Side by Side rescue vehicles and miscellaneous and training, 1 for each agency for a total of \$120,000

These rescue UTV's would have a water/foam tank with pump, patient transport capabilities and the ability to transport crews in equipment. We have identified areas within our jurisdiction that traditional vehicle can not access. Mud and snow also become problematic for larger vehicles. This vehicle would be a major resource in recreational rescues, search and rescue, remote fires, assisting with fuels management, and recognition of incidents.

If purchased, these UTV's would be made available for use by other agencies under the County Mutual Aid Plan.

Thank you for your consideration.

Jon Noyer, Fire Chief-Brooktrails CSD

Chris Wilkes, Fire Chief-Little Lake FPD
