

I am writing to support a county-wide Environmental Impact Report as essential in regards to any consideration of commercial cannabis expansion. An environmental impact report by Use permit and the Planning Commission cannot protect our wildlife, water and way of life here.

If the Board of Supervisors votes to pass an ordinance without a county wide environmental impact report, I will sign and promote a referendum to repeal the proposed Expansion Ordinance.

I am a retired teacher, a longtime resident, property owner and taxpayer in this county.

Thank you.
