

Dear members of the board—

IMO, The Mendocino County Fire Safe Council is doing an admirable job of educating people in our County about what they can do to make their properties fire safe, what to pack and how to prepare for evacuation. Were it not for this consistent voice offering tips, advice, and expert guidance I would not be as prepared for wildfire as I am today. The Council has hosted radio interviews with experts, run informative spots on radio, and offers a constant reminder that we live in a fire-prone area and must be prepared. I encourage you to fully fund this very useful and effective organization.

Best wishes —Suzanne
