

Good evening, Mike, Nash and Howard,

The Ukiah Valley Fire District has an item on the consent calendar (item 4v) for tomorrow's Board of Supervisors meeting adopting local amendments to the 2019 California Fire Code. Some of these amendments with regards to fire sprinklers and fire access road construction may be of interest to your departments. Has Ukiah Valley Fire given you an opportunity to review and comment on these amendments? If not, I recommend that you ask the Board to pull the agenda item and give you and the public an opportunity to review and comment on the proposed amendments at the next Board meeting.

Thank you for your time and kind consideration of this request.

Sincerely,

Scott Ward, CBO
