

Dear Board of Supervisors,

I am writing again to ask you NOT to pass the proposed cannabis ordinance. Without an Environmental Impact Report there should not be any expansion of cannabis. It is irresponsible to not require an EIR on the entire county before making decisions regarding expansion.

I have lived and paid property taxes for over 40 years in this county. I own and live on range land in Redwood Valley. I am a retired school teacher. I will support both referendums to be put on the ballot if you pass the proposed ordinance.

Sincerely,

Kathleen Fitzgerald Azarnoff
