

I have written so many times to express my absolute opposition to the 10% expansion that is in the new ordinance. Talking to people who are not listening and do not know who they work for is frustrating. So this is all I will say. Spending my time working everyday on the NO on Expansion referendum. we will do the job you have been unable or unwilling to do. I have spent 4 years trying to get you to listen 4 years of diminished quality of life for long time , tax paying residents who do not want expanded corporate grows. Here the large legal grows are the worst!!!!!! DO Not assume I am no longer interested, quite the opposite. Refocusing my energy from appealing to policy makers, to making the change happen without you. Shame on you.
