

Dear Board of Supervisors,

I hope you do not renew the contracts to kill Mendocino County Wildlife. We need all our Wildlife to maintain a balanced ecosystem. It is hard enough for wildlife now with fires, drought and scarce food without also killing Wildlife so people can eat other animals.

Please do not use my taxpayer dollars to kill coyotes or mountain lions.

I am hoping the county will provide a non-lethal exclusion service and education to protect both people and wildlife.

Thank you.

Rebecca Aum, Caspar
