

Mendocino County Board of Supervisors,

Please rescind the CCAO, 22.18 and save our county the cost of an election. Please focus on the existing ordinance, MCCR/10A.17. The stalled permit applications need to be addressed along with illegal grow activities and the destruction of our beautiful land and water resources. We need to take the time for some serious discussions about the expansion of cannabis grows in our county. Let's get EIR studies done and stop the destruction of our fragile ecosystems.

Thank you.

Sally Underwood
