

Dear Board,

I am very much against using any of the PG&E funds that were given to the County for anything other than their intended use, which was to rectify damages done by the fire they caused in October 2017.

Although I sympathize with the drought conditions that are hard on the Village of Mendocino and their need for hauling water, there are other funds available such as the Mendocino County Tourism Commission coffers for this situation.

The leftover PG&E Settlement Funds should be used to help Redwood Valley with unmet needs related to the 2017 wildfire and nothing else.

Thank you.

Sincerely,  
Katrina Frey
