

When are you folks going to take a stand against the fires started by your non paying tax, parolee Constituents?  
Those good tax paying People impaired by the Hopkins Fire, who you and your 30 year prior Board Cronies have let  
habitate, needs to be addressed.

This County in proper has become a Habitat for Convicts, Predators and Trash.

You Folks who are paid by the Good Tax Paying People of this Once Good County, should be ashamed!

This Elected Board needs to get a Handle on this Cesspool and take a stance.

No Campfires, no Graffiti and no crime.

Support those People who take pride in living in this County!

Shame on you and your 20 year Predecessors for allowing this to happen!

The entire board should support those who give a darn and try to rehabilitate a Failing County.

At Godspeed and please be safe,

Kurt Smallcomb
