Regarding AG#2019-0044

Dear Board of Supervisors and Cannabis Program,

It has been brought to my attention that the Mendocino Cannabis Program (MCP) portal is sending incomplete notices for just about everyone. I am concerned about my license approval. This is my entire livelihood and I have supplied all of your requirements for the portal and uploaded exactly what the portal asked for .

I am concerned that due to the non disclosure of added requirements to the portal that I was not aware of, that my livelihood is being threatened by the MCP. I am requesting that you notify my consultant, JC&A, and myself be notified of your plan to rectify these discrepancies in your program at your earliest convenience.

I have also been made aware that a class action suit is being filed because of these Portal discrepancies.

Respectfully,

**Nicole Huphries**
