

Honorable Supervisors:

I am in support of extending the time that the Portal is open. I find it curious that after nearly four years of the County's lack of concern with the passage of time, that there is now some pressing need to put the program on the fast-track regardless of the negative consequences to Legacy growers.

In response to our recent deficiency notices, the consultant who handled our portal submissions said that the County is nitpicking. Might this be an attempt to further reduce the number of pending applications so you can get to your "Bigger is Better" cannabis program?

Respectfully,

Clifford Morford

CEO and President
