

Dear BOS,

Please support and enact policies to support the suggestions of the Coalition Letter and reform a Cannabis Standing Committee.

As fair people and government officials, you must hold yourselves and the county government to the same standards of law and regulations as the cannabis community is now trying to achieve. The short time schedules and denial process is blatantly unfair and counterproductive to the economic growth of our county. We live here too.

We made this place. Without us, you also will be

Out of Work.

Please develop a sensible timeline

Patrice Byarlay
