

Greetings,

Thank you for your service as supervisors. I am certain the time you put in is far more than most citizens can begin to realize. I am especially aware of the inordinate amount of time Ted Williams put into keeping our community informed of local COVID-19 progress, most critically in the early days of the pandemic. Thank you again.

I am writing today to express my support of Resolution 21 and believe we must embrace the implications of science moving forward in caring for our planet's natural resources. Global warming is moving faster than envisioned or foretold; we must make the health of our planet a top priority.

Thank you,
Madeline Force Richards
Resident, Mendocino County
