

Dear Board of Supervisors,

I understand you are considering the matter of STRs (short-term rentals) tomorrow morning, Wednesday, November 17.

We have been driving through Anderson valley for the last 10 years. I say driving through because we could never find a place to stay. We always ended up on the coast where there are a million options.

We are fortunate enough to be residents of this beautiful place now and have no intention of running a STR.

I do believe however that having more STRs available will bring more life into this community. It will encourage remodeling and construction, bring more tax revenue into the community, and help the struggling wineries and shops in our community.

Thank you for listening.

Regards,  
Shamsi Mawlaoui

Yorkville CA Resident
