

I live on Bell Springs rd. and can't believe that even though I have my address in Laytonville, shop mainly in Willits and have very little to do with the area that the redistricting puts me in (4th district) ! My life has been as a Laytonville/ Bell Springs rd. person since 1977. My daughter went to school in Laytonville. My community of interest is very clearly in the 3D district.in every sense. I have been proud to have you as my supervisor. You are definitely the one attuned to the people that you have represented so well. I remember when you were running for Supervisor how you came up to the gravel pit market to acquaint yourself with we mountain folks.! Is there no way to put the Bell Springs rd. people who are within the first few miles up Bell Springs rd. in their accustomed 3D district? I almost never go north on101. I'm used to going to the south and past that wonderful sign written on the barn right past Laytonville that says: Don't Forget the Magic! Well, I won't. Maybe there is still a way? I can only hope!!!
