Agenda Title:

Approval of Agreement with Restpadd Inc. in an Amount Not to Exceed \$1,000,000, to Provide Inpatient Psychiatric Treatment Services to Qualified Mendocino County Clients, Effective July 1, 2024, through June 30, 2025

Recommended Action/Motion:

Approve Agreement with Restpadd Inc. in an amount not to exceed \$1,000,000, to provide inpatient psychiatric treatment services to qualified Mendocino County clients, effective July 1, 2024, through June 30, 2025; authorize the Behavioral Health and Recovery Services Director or designee to sign any future amendments that do not increase the maximum amount; and authorize Chair to sign same.

Previous Board/Board Committee Actions:

February 6, 2024, Item No. 3m), Approval of Agreement No. BOS-24-022

Summary of Request:

Restpadd, Inc. is a 16-bed acute care psychiatric inpatient treatment facility located in Redding, California licensed by the State of California Department of Health Care Services. Admission to Restpadd Inc. is based on the medical necessity of patients who are unable to maintain and safely function at home or in the community. At the facility, Restpadd Inc. provides multi-disciplinary evaluation, treatment, rapid stabilization, and coordinated discharge planning that encourages wellness and recovery of individuals, with a goal to send

those individuals back to their respective communities.

Currently, there are no local facilities in Mendocino County that are able to provide acute care psychiatric inpatient treatment. As a result, Behavioral Health and Recovery Services (BHRS) hopes to contract with Restpadd Inc. through the proposed \$1,000,000 Agreement for inpatient psychiatric hospitalization services to qualified Mendocino County clients. Through the proposed Agreement, BHRS will place qualified mental health clients in Restpadd Inc., where they will receive appropriate care including diagnostic assessments, bed spaces, therapeutic and rehabilitation services, and applicable treatment for stabilization and maintenance of mental health conditions, with an overall goal to improve client functioning and successfully discharge or transition them to a lower level of care.
