Summary of Request:

The Human Resources Department is charged, as part of the overall maintenance of the classification and

compensation plan, to evaluate current classifications, create new classifications (including appropriate salary levels), reclassify positions, examine requests for salary grade adjustments, analyze allocations, and make recommendations for additions, modifications, and corrections.

At the request of the Public Health Department, Human Resources has prepared a new classification specification for Maternal, Child, Adolescent Health (MCAH)/Perinatal Services Coordinator (PSC) Manager. The proposed classification will fulfill specific management requirements as well as duties that are required in the County's Public Health Department. This classification provides the ability to maintain compliance and collaboration with the State of California MCAH Division.

The Maternal, Child, and Adolescent Health Division (MCAH) is one of three divisions within the Center for Family Health under the California Department of Public Health (CDPH). MCAH supports the vision of the Center for Family Health by implementing strategies to improve health, support the development of children and adolescents, and foster well-being and equity across the reproductive life course. The division oversees programs that serve California's diverse populations, as well as specialized collection and analysis of data related to reproductive health, pregnancy, child health, equity, and more.

The impact shown below for this fiscal year is calculated at Step 5 during pay period 10-24 (April 28, 2024) and includes the cost of benefits. The annual recurring cost shown below is calculated at Step 5 including the cost of benefits.

The County has fulfilled its obligations under Myers-Milias Brown Act (MMBA) with the affected bargaining units.
