**Summary of Request:**

In 2015, the California Department of Health Care Services (DHCS) implemented a new substance use disorder benefit and delivery system called the Drug Medi-Cal Organized Delivery System (DMC-ODS) as part of an amendment to DHCS 1115 waiver. DMC-ODS provides a continuum of care modeled after the American Society of Addiction Medicine Criteria to enable more appropriate delivery of services and treatment, provide more local control and accountability, and provide greater administrative oversight of services for Medi-Cal beneficiaries.

Counties have the choice of opting into the waiver to expand services or maintaining their current state plans. Opting into DMC-ODS was phased in, starting with the bay area counties. Counties that opt in will administer the DMC-ODS waiver program locally, providing and arranging for substance use disorder treatment for Medi-Cal beneficiaries.

Partnership HealthPlan of California (PHC) proposed a regional model approach for delivery of DMC-ODS services in nine of their currently contracted counties. Under this approach, PHC will administer the DMC-ODS substance use treatment services on behalf of the counties and contract back with the counties and community agencies to provide substance use treatment services. This model allows DMC-ODS services to be provided to beneficiaries across county lines, so that individuals can access services not offered within their home county. The PHC regional model consists of Humboldt, Mendocino, Shasta, Siskiyou, Solano, Lassen, and Modoc Counties as well as a variety of community agencies.

Approval of the proposed Agreement with DHCS will allow PHC to administer ODS services on behalf of Mendocino County.
