Agenda Title:

Approval of Agreement with Tyler Technologies in the Amount of \$145,422 to Provide a New Software System for Mendocino County Environmental Health, Effective Upon Signing to be Renewed Annually Until Terminated

Recommended Action/Motion:

Approve Agreement with Tyler Technologies in the amount of \$145,422 to provide a new software system for Mendocino County Environmental Health, effective upon signing to be renewed annually until terminated; authorize the Health and Human Services Agency Director or designee to sign any future amendments that do not exceed the annual maximum amount; and authorize Chair to sign same.

Previous Board/Board Committee Actions:

N/A

Summary of Request:

Tyler Technologies Inc. is a major public sector software company based in Plano, Texas. It is the largest software company in the United States that is solely based on providing integrated software and technology services to the public sector - states, cities, counties, and school districts.

Mendocino County, Environmental Health (EH) is seeking a contract with Tyler Technologies for development and implementation of a database management system to replace its existing database. The current database, developed internally in 1997, was built in Microsoft Access, and is used for all Environmental Health operations, including inspections and permits for food, hazmat, and land use programs. It is incapable of being upgraded to remain current. Tyler Technologies offers services to transition the existing database to a new database that can interface with the State of California Database and improve overall efficiency.

Alternative Action/Motion:

Return to staff for alternative handling.

Supervisory District: All

vote requirement: Majority
