**Summary of Request:**

After the 2017 wildfires, West Business Development Center (West Center) was selected through an RFP process to serve as the County's lead in facilitating the development of an economic recovery & resiliency plan. Subsequent wildfires, public safety power shutoffs and the COVID-19 pandemic created the realization of an urgent need for a comprehensive 10-year economic strategy. We have completed the first step of this ongoing process which included establishing governance, research & data collection, community engagement, and a set of foundational recommendations. The term MOVE2030; *Mendocino Opportunities for building a Vibrant Economy* was created to describe this body of work. A steering committee was created with representation from the Board of Supervisors, County Executive Office, West Center, The Community Foundation of Mendocino County, Economic Development & Financing Corporation, and the Workforce Alliance of the North Bay. Work was conducted to build a common vision, collect current data to guide outcomes and participate in regional economic activities. Over 200 participants and 15 organizations from every region of the county came to listen, share, and mobilize to explore new ways to stimulate the economy. Over time, it became clear this work broke down legacy silos and built bridges that connected participants to this common vision. Today's presentation is a summation of the work that became MOVE2030, with speakers including Mary Anne Petrillo and Paul Garza from West Center, MCOE Superintendent Michelle Hutchins, Amanda Reiman from Flow Kana, Jim Roberts from The Madrones, Sarah Million McCormick from the City of Fort Bragg, and Jim Mayfield from Rainbow Ag.
