(Sponsor: Air Quality Management District)

On March 15, 2016, the Air Quality Management District Board approved a list of applications for the District's

**Summary of Request:**

The California Air Resources Board (ARB) administers The Carl Moyer Program. The Program creates incentives in the form of grants for private companies or public agencies that operate heavy-duty diesel engines in California. These grants are used to cover an incremental portion of the cost of purchasing new replacement vehicles, replacing diesel engines in existing vehicles or equipment with cleaner -burning engines, or retrofitting existing diesel engines with abatement devices. The District has approximately \$483,000 available for this funding cycle. The proposed applications total \$480,275. All applications fall within State Carl Moyer Program Guidelines and the priorities identified by the Air Quality Management District Board.

**Alternative Action/Motion:**

Do not approve the applications as submitted and/or re-prioritize the projects.
