Summary of Request:

DOT Agreement No. 170083 provides for professional civil engineering, geotechnical and environmental services to assist in IGP compliance at Mendocino County's three landfills through June 30, 2022. The Statewide IGP, Order 2014-0057-DWQ, implements the federally required storm water regulations in California for storm water associated with industrial activities discharging to waters of the United States and consulting services are needed to assist County staff and ensure compliance with the requirements. A Request for Proposals was issued on October 23, 2017, to which three technical proposals were received from firms capable of providing the necessary services. DOT has determined SHN is the firm best qualified to provide the work under DOT Agreement No. 170083. After discussions and negotiations, SHN has agreed to perform the services under DOT Agreement No. 170083 for a not to exceed amount of \$141,100. DOT requests and recommends the BOS approve and award DOT Agreement No. 170083 to SHN to perform consulting services to assist in IGP compliance. DOT also believes it is prudent to authorize the Director of Transportation to approve amendments to DOT Agreement No. 170083 up to \$14,000 to address unanticipated work due to adjustments to the requirements of the IGP.

Alternative Action/Motion:

Delay approval of DOT Agreement No. 170083.
