Previous Board/Board Committee Actions:

August 6, 2019, Item 4(o), BOS Agreement No. 19-198.

Summary of Request:

The Lanterman-Petris-Short (LPS) Act is the California law governing the involuntary civil commitment of individuals who, due to mental illness, pose a danger to themselves, a danger to others, or who are gravely disabled and require inpatient psychiatric care. The intent of the LPS Act was to end inappropriate lifetime commitment of people with mental illness and firmly establish their right to due process while significantly reducing state institutional expense.

Pursuant to the requirements of the LPS Act, Mendocino County is responsible for providing residential care services to LPS clients who are court-mandated to receive a specific level of care requiring a structured environment due to mental health challenges. Currently, there are no local facilities in Mendocino County that are able to provide all levels of care as mandated by the courts. In addition, there is a shortage of residential care facilities statewide, which creates competition for these placements. As a result, the Health and Human Services Agency (HHS), Behavioral Health and Recovery Services (BHRS) contracts with multiple residential care facilities in order to help manage the shortage, and to maintain current client placements, ensuring the most appropriate care within the largest possible placement options.

Crestwood Behavioral Health is one of a few residential care facilities able to provide services to Mendocino County clients. Crestwood Behavioral Health, head-quartered in Sacramento, CA with facilities throughout the

State of California, provides secure residential treatment programs that deliver a broad range of services for adults requiring a structured environment due to mental health challenges. Levels of care include the provision of groups, trainings, and programs to promote the recovery of clients for independent living in the community. The County's goal is to transfer clients to a less restrictive residential setting as soon as they are medically able. HHSA BHRS, requests Board approval of this Agreement with Crestwood Behavioral Health in order to comply with its mandate under the LPS Act.
