The Department of Fish and Wildlife (CDFW) identified Mill Creek Ponds as high risk for dreissenid mussel establishment and therefore a high priority for a prevention program. The Mendocino County Water Agency submitted the prevention plan to CDFW in October of 2019, which was approved for implementation. DBW provides grant funding for the implementation of prevention plans. The Mendocino County Executive Office and Mendocino County Water Agency request the Board of Supervisors approves a Resolution authorizing the Chief Executive Officer to submit a grant application to DBW in the amount of \$54,696.40 for the Quagga and Zebra Mussel Prevention Plan implementation.
