**Previous Board/Board Committee Actions:**

Ongoing Agreement since 2010; last action on August 6, 2019, Item 4(r), BOS No. 19-201.

**Summary of Request:**

The Lanterman-Petris-Short (LPS) Act is the California law governing the involuntary civil commitment of individuals who, due to mental illness, pose a danger to themselves, a danger to others, or who are gravely disabled and require inpatient psychiatric care. The intent of the LPS Act was to end inappropriate lifetime commitment of people with mental illness and firmly establish their right to due process while significantly reducing state institutional expense.

Pursuant to the requirements of the LPS Act, Mendocino County is responsible for providing residential care services to LPS clients who are court-mandated to receive a specific level of care requiring a structured environment due to mental health challenges. Currently, there are no local facilities in Mendocino County that are able to provide all levels of care as mandated by the courts. In addition, there is a shortage of residential care facilities statewide, which creates competition for these placements. As a result, the Health and Human Services Agency (HHS), Behavioral Health and Recovery Services (BHRS) contracts with multiple residential care facilities in order to help manage the shortage, and to maintain current client placements ensuring the most appropriate care within the largest possible placement options.

Telecare Corporation is one of a few residential care facilities able to provide services to Mendocino County clients. Telecare Corporation, located in Alameda, CA is a Skilled Nursing Facility providing a broad range of services for adult clients, including psychological rehabilitation support, activities and educational

opportunities to improve life skills, treatment by a psychiatrist, and solutions for healthcare needs. Telecare will provide medical, nursing, and rehabilitative services to clients of BHRS who have neurological and mental deficits resulting from trauma, disease processes, or metabolic or toxic degenerative disorders. Telecare Corporation provides services to individuals over the age of 18 with special treatment needs related to neurological impairments requiring a longer treatment phase to gain skills needed for community re-entry.
