**Summary of Request:**

On October 9, 2017, the Redwood Complex Fire started and resulted in significant structural damage of several portions of the County. On October 13, 2017, the local health officer declared a local health emergency under Health and Safety Code Section 101080 due to hazardous materials contained in the debris from structures destroyed by the fire. The Board of Supervisors ratified the declaration on October 17, 2017. On October 31, 2017, November 14, 2017, November 21, 2017, December 5, 2017, December 19, 2017, January 9, 2018, February 6, 2018, February 27, 2018, March 27, 2018, April 24, 2018 and May 22, 2018, the Board adopted Resolution Nos. 17-154, 17-167, 17-173, 17-179, 17-195, 18-007, 18-020, 18-030, 18-043, 18-057 and 18-073 respectively, reaffirming the existence of the local health emergency.

As of 5/31/18, the preliminary hazardous waste sweeps have been completed for all 337 properties. 321 properties have arranged for cleanup through the public Consolidated Debris Removal Program, and initial debris has been completed for all parcels, of which 1 is still awaiting final soil testing results.

It is requested that the Board find that the local health emergency continues to exist, and therefore reaffirms the proclamation of local health emergency. Pursuant to Executive Order B-45-17, the Governor has waived the 14-day time period in Health and Safety Code section 101080 within which local governing authorities

must renew a local health emergency. The order provides instead that the local health emergencies resulting from the October 2017 wildfires will remain in effect until each local governing authority terminates its respective health emergency.
