Summary of Request:

On June 1, 2017, the State Water Resources Control Board issued Water Code Section 13383 Order letters (Order) requiring Phase II Small MS4 permittees to submit a method to comply with new statewide Trash Provisions. Department of Transportation (DOT) Agreement Number (No.) 190088 provides for engineering and consulting services to conduct a comprehensive stormwater trash capture feasibility study as a preliminary step to compliance with the order. In order to facilitate timely completion of work, DOT believes it is prudent to budget a 10% contingency in the amount of \$12,500 for unforeseen additional work that may need to be performed and authorize the Director of Transportation to sign any and all amendments up to that amount.

Alternative Action/Motion:

Do not approve DOT Agreement No. 190088.
