Ukiah, CA 95482

To Whom it may Concern:

The Comptche Community Services District (CCSD) is seeking to extend the 2017 PG&E Settlement Funds Grant MOU Agreement in order to utilize the funds allotted to the CCSD.

It has come to our attention that the MOU agreement has expired. CCSD attempted to use the funds, in December of 2025, to apply toward the purchase of a new rescue vehicle but were told that the purchase of this equipment did not fit in under approved purchases of the MOU. It has been challenging to identify additional specific medical related items to purchase due to the fact that CCSD, in coordination with the Comptche Volunteer Fire Department (CVFD), had inventories of medical supplies and equipment that were at acceptable levels due to purchases made with the original PG&E settlement monies. CCSD/CVFD did not want to make purchases recklessly or waste money on items which were not needed. This is why we have been delayed in requesting the allotted funds. However, with the completion of the purchase of a new rescue vehicle, we do have a need to add a new battery powered Holmatro extrication tool on the new vehicle to better equip the department for auto extrication during a vehicle accident. The total quoted cost of this tool, which includes 2 batteries and the charger, is \$16,225.26.
(See attached quote)

In conversations with Jen Banks this would be an eligible purchase for the settlement money and she has approved this purchase. Having this tool would be a significant improvement over the hydraulic tools which the department currently uses. Once approved, CCSD/CVFD is ready to complete the purchase immediately upon receiving the funds. Any additional monies required to complete the purchase will come from department budgeted funds.

Sincerely,

Steven Tunzi
Assistant Chief, CVFD
